

The smart link between urgency and expertise

Swift Secure Logistics provides tailored logistics solutions for urgent, sensitive, and high-value shipments. We assess every request, identify potential risks, and select the most effective transport solution for each assignment. From collection to final delivery, we take full ownership and keep you informed through one dedicated point of contact.

SOLUTIONS

BUILT AROUND YOUR SHIPMENT

You don't need to know which transport solution your shipment requires.

Simply tell us what needs to move, where it needs to go and when it needs to arrive. We assess the full picture, including the cargo, timing, destination, customs requirements and potential risks.

Every shipment is different. We build the solution around your specific requirements and determine the most suitable way to move it.

We consider the full picture before deciding how your shipment should move.

Customs is part of that picture. By identifying requirements and potential obstacles early, we reduce the risk of avoidable delays and ensure the solution is operationally viable.

Because a shipment is only as fast as its smoothest clearance.

THE MEANS WE USE

We use a range of transport solutions, selecting the means that best fit the urgency, destination, cargo and risk involved. Each shipment is assessed individually to build the right balance of speed, control and flexibility.

ONBOARD COURIER

A dedicated courier accompanies your shipment from origin to destination.

DEDICATED ROAD TRANSPORT

A dedicated vehicle moves your shipment directly from origin to destination.

NEXT FLIGHT OUT

Your shipment is placed on the most suitable next available commercial flight.

AIR CHARTER

A dedicated aircraft is arranged specifically and exclusively for your shipment.

WHEN YOUR SHIPMENT CAN'T WAIT, WE'RE READY

Tell us what needs to move and where it needs to go. We'll assess the situation, build the right solution, and take care of the rest.
